

**DELIVERING  
ICT4D  
SOLUTIONS  
AT SCALE IN  
DEVELOPING  
COUNTRIES**

The company enables transformative impact in developing countries through three primary service offerings:

Strategy and Advocacy

Implementation and Management

Optimization and Institutionalization

Vital Wave provides end-to-end services to scale information and communications technology (ICT) solutions for socioeconomic impact in developing countries. The firm works with multiple stakeholders to deliver technology solutions that amplify the reach, uptake, and efficiency of development programs. Vital Wave draws on a full range of enterprise-level ICT implementation capabilities, proven methodologies, and decades of field experience in developing countries to achieve sustained growth at scale.

Clients engage Vital Wave to design and implement ICT programs in the following impact areas:

Health

Emerging Cities

Agriculture

Financial Services

Education

Energy and Environment

Women and Development

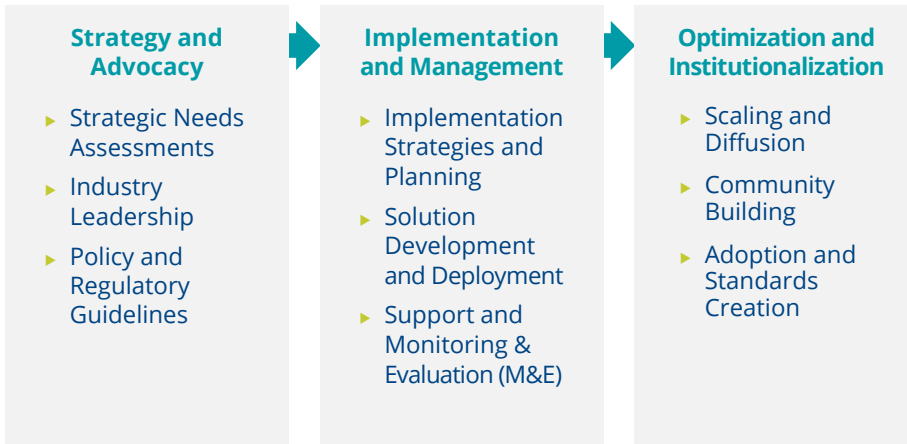

SMBS and the Informal Economy

Data for Decision Making

Within these service areas, Vital Wave delivers a full range of offerings. Clients can engage Vital Wave for the entire lifecycle of a project or at distinct points of service delivery.

## ICT Business Lifecycle

Strengthening data systems improves decision making and patient care.

Digital payments saves time and improves the safety of workers.

Relevant, affordable ICTs build skills for digital economies.

Vital Wave partners with foundations and other development organizations, technology and pharmaceutical companies, and governments to deliver transformative impact in developing countries.

As a world leader in ICT for development (ICT4D), the company has executed projects across a broad range of impact areas, with a strong focus on business rigor, user-centered design, and an ecosystems approach. Drawing on decades of field experience, proven business and program management skills, and valuable global and local partnerships, Vital Wave helps its clients to achieve scale and impact in developing countries.
